Scope

Subcommittee 6 provides guidance for laboratory assessment activities. It works on topics related to laboratory accreditation. Representatives of accreditation bodies, laboratories, and regulators report on the status of EMC testing and calibration activities.

4.1 Election of Officers (as required)

The chair is approaching the permissible limit of consecutive terms and the vice chair has expressed a desire to remain in that position rather than move up. The chair would suggest that a Laboratory representative would be a better choice than a representative from an Accreditation Body.

5. Working Group reports - Chair - [More information about each standard](#) is available on the Standards Status Matrix page of the [C63® web site](#). This information will be reviewed for accuracy at each Subcommittee meeting

5.1 C63.8: Calibration of EMC Test Equipment (guide) - (insert link to [WG report](#))

The document has been sent to SC6 for SC comment before balloting.

A/I – Allen to summarize the comments on C63.8 and circulate.

5.11 Status Matrix Review (Spring meeting only) Verify accuracy of document [status matrix](#) content and report any errors to the ASC-C63[®] Secretary. **Is this information correct? (Yes/No)** (repeat this verification for all Standards covered by this Subcommittee)
